## Mission Statement

To provide quality products and customer service in a professional manner that meets or exceeds our customers' every expectation.

Forrest Fence is a small, family fencing company in Felton, Delaware owned by United States Military Veteran, John Forrest and his wife, Karen. In fact, much of John's military experience has transitioned over to the way he manages his business today. Respect, honor, precision and excellence is what he hopes to achieve in every interaction the company has with the customers we have the pleasure of doing business with.

Founded in 2004, John worked weekends to get his business off the ground while being on active duty at Dover Air Force Base. His dedication and hard work paid off. By the time his service in the military was complete, his company had grown significantly. Now, years later, it has become one of the most trusted, respected, and successful fencing companies in Delaware. We serve all of Delaware and the Eastern Shore of Maryland with our residential product line and travel to several different states for our commercial work.

We take pride that our quality, range of products, professional installers and excellent customer service is what sets Forrest Fence apart from the rest and builds a relationship with customers that will help us continue to grow for many years to come.

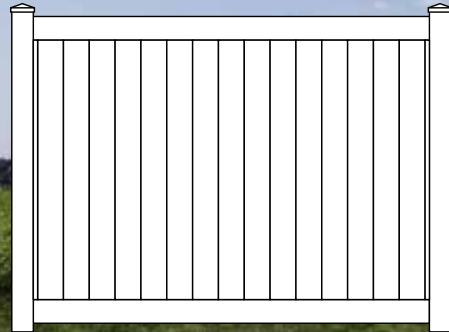

Stop by our showroom for expert guidance and design inspiration.
